FINEST IN THE FIREARMS FIELD

36 Nilgai may be tough, but a Texas game-ranch hunt shows that the new .300 WSM, with its short, efficient powder column, is even tougher.

48 It may look like a nostalgic levergun, but when you send a 400 gr. bullet out at 1,800 fps or better, you're definitely in magnum country.

50 Don't be intimidated by the high-tech heart of the EtronX — its "transparent" electronic cartridges give handloaders a new frontier of accuracy potential.
