

NAVY'S AMAZING NEW ARCTIC FABRIC NOW IN ALLEN-A THERMAL UNDERWEAR

Warmth without bulk for all men and women who work or play in chilling temperatures

The Navy needed a wonder-fabric—warm enough for far-below-zero weather, yet unusually absorbent so it could be worn indoors or in mild weather without sweltering. And 100% laundry-foolproof.

Here's the fabric they developed—in well-made shirts and drawers especially designed for active men and women. Now you can shed extra layers of bulky, heavy outer clothing—dress lighter, have more freedom.

This new fabric is made of down-soft cotton (doesn't itch), knitted in unique 3-dimension pattern. Traps body-heat in thousands of tiny "pockets" for perfect insulation. Rigorously tested for warmth in arctic conditions. Can be machine-washed, tumble-dried. Won't shrink out of size or stretch out of shape.

Ask for Allen-A thermal underwear at your favorite sporting goods or furnishing store, or write The Allen-A Co., Dept. GN, Piqua, Ohio.
